

Comprehensive Appointeeship and Financial Advocacy Service

FAB Support can offer a comprehensive appointee and financial advocacy service, where we take full responsibility for claiming benefits on behalf of an individual and for supporting that person and their circle of support to make all financial decisions. This includes using a holding account to receive benefits and where necessary setting up local bank accounts, setting up direct debits, agreeing weekly, fortnightly or monthly personal budgets and how money will be accessed on a day to day basis. This can include a quarterly financial reconciliation and financial audit and spot checks of financial records. This service works best for people whose finances are very complicated or where an individual is particularly vulnerable. For more information please contact [**info@fabsupport.org**](mailto:info@fabsupport.org)
